## ZKPOS SUPERMARKET INVENTORY APP

---

Version: 2.0.0

Date: 04-01-2021

Software Version: 2.0.0

## GETS STARTED

ZKPOS 2.0.0 android version Supermarket Inventory App allows the business individual to easily manage inventory system. It consists not to worry about how much inventory that a supermarket holds, the point-of-sale system keeps track of the items. With ZKPOS Supermarket Inventory App it saves the name of the stock of items and shelf number where the cashier scans the product with the help of a barcode scanner and the product name, its shelf will be displayed and we can add the stock into the application. Accordingly, it will be updated in ZKPOS Supermarket software also if we upload the details. The application helps us to maintain the stock intact. After installation you need to open ZKPOS INVENTORY APP. The first step you have to follow is LOGIN process.
